

Build-a-Guitar®

Build-a-Guitar® is our trademarked music program featuring guitar kits we had specially designed for your group to be able to assemble beautiful guitars in about an hour.

Through this program, over a thousand guitars have been built and donated to underfunded middle and high school music programs and youth organizations.

This fun, constructive event starts with fast-paced icebreakers that will have everyone laughing and bonding with one another. The next step involves forming your group into teams we call Bands, whose first task will be to come up with a band name and pick a leader.

Bands are then issued iPads® and instructions. The iPads® contain trivia, tongue twisters, name-that-tune, and sing that song challenges, plus photo and video activities and challenges that need to be completed to earn the points necessary to purchase the guitar parts for the build.

Bands will also decorate guitar cases that reflect the personality of their members. During the build, our guitar techs will be inspecting the instruments and advising each Band on the successful completion of these beautiful guitars.

In addition to a case, each guitar comes complete with audio cable, a personal amplifier, a tuner, a guitar strap, and picks!

Get rockin' and build some cool guitars for donation to eager future musicians with this fun and rewarding Build-a-Guitar program!

Whenever possible, a representative from the school or local charity receiving the donation will attend the end of the event to speak with your group and thank them for their generous donation.

Since you like this program, you may also consider [Virtual Name that Tune](#) as a remote option!

This program can be delivered as a [Hybrid Event](#).
