

## City SmartHunts®

A **SmartHunt®** is absolutely the best way for students and faculty alike to discover the town or city surrounding your college or university. Experience the ultimate technology-driven event for fun competition, collegiate camaraderie, and sightseeing!

Your group will experience the cool interactive features of our SmartHunts app on Apple® iPads® that utilize text messaging, audio, video, FaceTime®, social media, QR codes, and GPS with built-in mapping to produce the coolest hunts ever!

Your customized SmartHunt® adventure, pre-loaded on our provided Apple iPads, is tailored to fit your group size and location. After an energizing icebreaker activity, teams are formed, and our facilitator will show the group how to navigate the SmartHunts App.

Our SmartHunts® App uses 4G LTE services and Wi-Fi to record photos, document videos, collect responses, and conduct scoring. Our GPS tracking and a one-way messaging system allow our facilitators to stay in contact with teams throughout the hunt, and our proprietary app will never lose connectivity due to our system that incorporates triple connection redundancy.

As teams navigate through missions, including trivia, solving clues, photo and video challenges, tasks, landmark locations, and more, they can play the game in any order. This means they must create a strategy to choose which missions to complete and in what order to do them, to get the highest score. Behind the scenes, all photos and videos captured by the teams are sent to our facilitator at the home base, so they are ready to be presented in a slideshow at the concluding awards ceremony where all the winning team members will be awarded gold medals.

After your SmartHunt® event concludes, we will send you a secure link to a private webpage that contains all the photos, videos, and scores from each team. This page also includes a professional highlights video.

Through shared laughter, songs, dance, and games, SmartHunts® increase communication, enhance collaboration, and boost morale, bringing students, faculty and administrators closer than ever before.

Since you like this program, you may also consider [Virtual Scavenger Games SmartHunt](#) as a remote option!

## Clients Talk About this Program

"Best team building experiences to date! Our **“City SmartHunt”** was extremely organized. The video challenges on the iPads were really fun and our group loved all the activities. We can't wait to receive the finished video of the photos and videos you had playing at the end of the event."
