

Presentation Skills Workshop

Our **Presentation Skills** training workshop will instill confidence in even the most timid of presenters while honing the techniques of the most experienced. Cultivate effective communication, which inspires others to action! It's no secret that the ability to speak effectively is an asset in any collegiate setting.

Research shows that this one skill can be the difference-maker to achieving crisp and clear communication while enhancing leadership ability and progressing along the path to success.

A successful presenter opens doors to countless opportunities. Anyone who is required to share critical information, compel others to action, or enhance persuasiveness will benefit infinitely from this Workshop.

The Workshop will:

- Cover specific skills vital to powerful and compelling presentations
- Explain the difference between "sharing" information and "presenting" it
- Deliver an action-provoking presentation on even the toughest of topics
- Use video as a tool for understanding how your audience perceives you.
- Include tips for maintaining composure when the unexpected occurs
- Identify and define the keys to keeping your audience involved.

To ensure a great experience, aspects of this Workshop may be modified to benefit your group size, group makeup, and time available.

Since you like this program, you may also consider [Virtual Presentations Workshop](#) as a remote option!

Clients Talk About this Program

"Your **"Presentation Skills"** program was a wonderful addition to this year's retreat. The facilitator did a fantastic job engaging the team. Many of our people continue to draw from your lessons, which shows just how effective they are. We look forward to working with you again!"
