

Putting for Pets

Putting for Pets is a fun philanthropy event requiring your group to design and build unique one-of-a-kind, animal-themed, miniature golf holes using pet supplies and other building materials.

Green “carpeting” is provided as the putting surface and canned and boxed pet food and supplies and other building materials are provided to create bumpers, turns, and special obstacle challenges. Creativity, resource management, and teamwork skills all come into play in this engaging program.

Our experienced professional facilitator will kick off the event with a fun icebreaker to energize and rally the teams. Next, players will create their own competitive (and zany) golfer nickname for their shirts. Teammates work together on the concept, construction, theme, and rules of their hole as well as choosing various roles such as golfers, scorekeepers, and course marshals.

With marshals ensuring that the rules of each hole are adhered to, the competition begins! Both newcomers and experienced golfers can enjoy this fun event and the winning team will be anyone’s guess!

Once the tournament is complete, the pet supplies will be boxed and presented to a local animal shelter. Your team will feel a sense of accomplishment and the joy that comes from giving to fuzzy paws and a worthwhile cause!

To ensure a great experience, aspects of this activity may be modified to benefit your group size, group makeup, and time available.

Program Details

Group Size:

30 to 1,000+

Team Size:

8 to 10

Program Length:

2 to 2.5 hours

Space Requirement

144 sq. ft. per team
