

We're All Virtual: Now What?

60-minutes to success! Our "**We're** All Virtual: Now What?" workshop helps you adjust and thrive in our new virtual world as your university or college community transitions from campus to their homes. Here's how to adapt to the new normal.

The challenge is that what worked when we were all together and what works now isn't always the same. Many of us struggle with task completion, relationships, and not being able to simply stand up and talk with someone.

The good news is that studies have found that connecting virtually within similar time zones can be more effective than engaging with colleagues and peers that are in the same building but located on different floors - if you have the right tools. This foundational course lays the groundwork for making your virtual community efficient and covers topics such as:

- Creative ways to keep your group connected
- Keeping track of shared tasks
- Technology tips for working together better
- Templates that can be used by the entire group

Our "**We're** All Virtual: Now What?" workshop is a custom workshop that will give you and your remote community a roadmap, while helping you organize yourselves to move forward more efficiently - and with fewer potential conflicts. This workshop focuses on:

- Methodologies that the group can use in future meetings, including but not limited to Team Charters, Tools to Assess Participation and Engagement, Sharing of Best Practices, and How to Address Conflict.
- Individual reflection on participants' values, and exploration of how a mutual understanding of these values can make the difference between triggering conflict and working towards goals together effectively.

This course utilizes the trainer's insights and merges them with the group's experience and expertise.

We also offer a full version of this program called [Building Your Virtual Team](#).

Program Details

Group Size:

Up to 30

Team Size:

N/A

Program Length:

60 to 90 minutes

Space Requirement

N/A
